ABOUT ME

Motivated MERN Stack and React Native Developer with a strong foundation in MongoDB, Express.js, React.js, Node.js, and React Native, seeking an internship or entry-level opportunity. Experienced in building full-stack web applications and cross-platform mobile applications, focusing on clean code, performance, and user experience.I have hands-on experience in developing responsive web interfaces, RESTful APIs, and mobile applications for Android and iOS using React Native. I am a quick learner with a strong interest in problem-solving, UI/UX design, and modern application development.

EDUCATION

Bachelor of Technology (B.Tech)
Suguna College of Engineering
Artificial Intelligence and data science
Coimbatore
Anna University
2023 – 2027

SKILLS

Mobile App Development:

- React Native (Android & iOS)

Backend:

- Node.js, Express.js
- RESTful API Development

Database:

- MongoDB

Tools & Technologies:

- Git, GitHub
- VS Code, Vite
- Basic CI/CD concepts

EXPERIENCE

Frontend Developer (Intern)

- Rehabionics Private Limited — Coimbatore, India
- Aug 2024 – Aug 2025
- Worked on developing and maintaining a professional company website for a medical technology firm
- Built responsive and user-friendly UI components using React.js and modern CSS frameworks
- Collaborated on improving UI/UX design, layout structure, and navigation flow
- Ensured cross-device compatibility and optimized performance for better user experience

MERN Stack Developer (Intern)

- Future Interns Program — Remote
- 1-Month Internship (2025)
- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js
- Created responsive frontend interfaces using React.js and Tailwind CSS
- Built and integrated RESTful APIs with backend services
- Gained hands-on experience in real-world project workflows and version control using Git and GitHub

PROJECTS

- **Mini E-Commerce Website (MERN Stack)**
- Developed a mini e-commerce web application with product listing and cart functionality
- Implemented responsive UI using React.js and Tailwind CSS
- Built backend services using Node.js and Express.js and managed data with MongoDB
- Focused on clean code structure and scalability
- **Rehabionics Company Website**
- Designed and developed a corporate website for Rehabionics Private Limited
- Implemented modern UI components and improved website responsiveness
- Focused on usability, branding consistency, and professional presentation
- **Rebrand a Famous Brand's Website**
- Redesigned a brand website with a focus on modern UI/UX principles
- Improved layout structure, visual hierarchy, and mobile responsiveness
- Developed reusable components using React.js and Tailwind CSS
- **CI/CD Pipeline Project**
- Implemented a CI/CD pipeline using GitHub Actions and Docker
- Automated build and deployment processes to improve development efficiency
